

Corporate Membership Package

Employers can purchase citybike access cards for staff to use during their working day. Using citybike access cards, employees can use citybike either to travel to meetings or for short lunchtime rides.

Cost: Each access card costs **£3 each** (plus VAT). Employers can then credit the account, which will be matched by citybike pound for pound. For example, if an employer credits the account with £50, citybike will add an additional £50, bringing the total up to £100 credit.

Corporate Membership Scheme

Our **Corporate Membership** provides an easy and efficient way for organisations and their employees to benefit from participating in citybike Liverpool:

Reduced transport and car parking costs – employees can cycle between meetings within the city rather than use their own, company vehicles or taxis.

Easy to use - a practical and accessible option for employee travel across Liverpool.

Employee health benefits – citybike is a form of active travel, encouraging employees to take exercise in an enjoyable way during business hours.

Environmental benefits – citybike is a low carbon form of transport, reducing journeys by **motorised transport and making a contribution to the green agenda.**

An employee benefit – the memberships may be used by employees for leisure outside working hours, if the employer so chooses.

Quicker journeys – get across the city in a fraction of the time plus convenient docking stations are situated around Liverpool.

No need for maintenance – it's covered in your membership, just select a bike and start cycling.
